> TERRIBLE ACCIDENT! Two Men Crushed to Death!

The U. S. Snag-boat, S. Thoper, has been operating in a vicinity for several days. On Monday, they were ope-ing near Mixrox's, on the Missouri side, three or four we here; engaged in felling trees on the bank, to their falling into the river with the rapidly caving bank, and forming snags. A great many trees had been felled, some of which had lodged against others. Hexar Boony, the First Mate of the boat, was walking around, superintending the work. One tree that had lodged was in ng precipitated by another that was being out.
as warned of his danger, and at the same moment the tree fell. So many trees had been cut, that there the falling tree, together with a colored man who had ng it, and who had attempted to follow him, in been enopong it, and who has attempted to lead within, in his efforts to escape. Boom's left arm was tern from his wely, his head crashed in, and his body otherwise mangled. The negro's neck was broken, and he was otherwise crushed. The death of both men was instantaneous. Captain DOYLE, of the Thoper, at once sent for the Coroner of Holt diet of acc. County, who held an inquest, and a verdict of accidental death was rendered. Mr. James, the Clerk, came to this place and procured coffins. The negro was buried here. Mr. Boony was an Odd Fellow, holding membership in American Lodge, No. 170, of Cincinnati, Ohlo. The members of the Order here packed the body in salt and ice, and forwarded it to his family, by express. The negro's name was ABRAHAM PILES, and he was from Sedalia, Mo.

COME TO GHIEF.—We last week published an account of a murder near Fairbury, Jefferson County, Nebrasks, in which two men were killed, while cutting grass to feed their horses. Later accounts inform us that JIN WHITE-

delivered him up for punishment.

So Jrm is about to meet his deserts at last. The papers So JM is about to meet his deserts at last. The papers are mistaken in saying that he is an Otoe. He is an Iowa, and was raised on the Reservation, in this vicinity, but married an Otoe squaw. He had some education, having attended school at the Mission, near Highland. He pretended to great picty, but was one of the meanest and most treacherous Indians in the tribe. He served as a soldier in the Kansas 13th, and from all accounts, was guilty of atrectites that abould not have been permitted. After being discharg-ed from the army, he spent his time in stirring up devilment among his tribe. He was one of the ring-leaders in the attack upon Maj. BURBANK, the Agent, some some six or seven year age. After that exploit, he spent some months in jail at Omaha; and shortly after his discharge, took up his permanent residence among the Otoes, where he at once set about making mischief between the Indians and their Agent and traders. His useful career is probably wound

SERIOUS ACCIDENT.-On Friday last, a man named ED-WARIS, employed at PALMER & OSTON'S saw-mill, met with a very serious accident. He was working at the lumber a very serious accident. He was working at the lumber csr, removing boards from the saw. In order to start the car, he put his foot back to brace if against a timber; but missing the timber, his foot went against the large circular saw, which at the time was not going very rapidly. The teeth of the saw canght in his heavy boot, cutting it almost entirely from his foot, but never touching the foot. However, his foot was turned entirely around, crushing and shattering the ankle bones and joint very bully. Had the saw been going at full speed, it would have drawn him in and cut him in pieces. As it is, if he gets over it with and cut him in pieces. As it is, if he gets over it with

It will be necessary to change the road in that vicinity, running it farther in toward the bluff. This ought to have been done in the first place, as the danger from the river was plain to be seen, as the washing of the land has been going on steadi-

Every fruit thief should be brought to justice, and punished to the extent of the law.

About the time the above affray was going on, another took place about a mile and a half south of town. An old drinking is very quarrelsome when in liquor, especial ly in his family, whom he had been threatening with vio see for some time. Colmorn then seized a club that happened to by within reach, with which he laid the old man out, making an ugly looking spectacle of him. By this time COLHOUS was bleeding badly; and knowing the necessity of reaching a surgeon as soon as possible, he mounted the horse from which HARMAN had just dismounted, and galloped to Oregon, where he arrived very weak from loss of blood. His round was dressed, and he was getting along as well as one expected. HARMAN was in jail, awaiting an examinat
